

David Glory Chiamaka

Frontend Engineer

✉ gloebudav@gmail.com ☎ +2348103722570 🌐 github.com/chi-touch

PROFILE

Frontend Engineer skilled in building responsive and scalable web applications using React, Next.js, JavaScript, and Tailwind CSS. Experienced in integrating frontend interfaces with REST APIs and backend services to deliver seamless user experiences. Proficient in focusing on performance, accessibility, and maintainable UI architecture. Passionate about writing clean code and building user centered web products.

SKILLS

Software Development — Next.js | JavaScript | React | HTML5 | CSS3, **Tools & Practices** — Git (GitHub), RESTful APIs, Axios, Vercel, Figma, **General IT Skills** — Git Version Control | Agile Methodologies | Problem Solving, **Professional Skills** — Team Collaboration | Communication Skills | Time Management

PROFESSIONAL EXPERIENCE

- Enum Africa *Frontend Engineer*2026

 - Develop and maintain scalable, responsive web interfaces for internal and client-facing applications using React, Tailwind CSS, and JavaScript.
 - Integrate RESTful APIs with Axios, ensuring seamless data flow and dynamic content rendering.
 - Actively participate in Agile ceremonies, including daily stand-ups, sprint planning, and retrospectives, contributing to on-time feature delivery.
 - Architect and implement reusable component libraries to enhance development efficiency and code maintainability across projects.
 - Collabraate together with the backend.
- Semicolon Africa, *Frontend Developer*2024 – present

 - Develop and maintain scalable, responsive web interfaces for internal and client-facing applications using React, Tailwind CSS, and JavaScript.
 - Integrate RESTful APIs with Axios, ensuring seamless data flow and dynamic content rendering.
 - Actively participate in Agile ceremonies, including daily stand-ups, sprint planning, and retrospectives, contributing to on-time feature delivery.
 - Architect and implement reusable component libraries to enhance development efficiency and code maintainability across projects.
- Narini Digital (Remote), *Freelance Frontend Developer*2024

 - Built and deployed a responsive service-hiring platform (narinidigital.vercel.app *🌐*), handling end-to-end development.
 - Implemented complex state management with Redux for user bookings, registrations, and service listings.
 - Integrated backend APIs to support dynamic data flow and user interactions.

- Managed deployment and version control using Vercel and GitHub, ensuring high availability and performance.

Currency & Weather App – Private Client (Remote), *Freelance Frontend Developer* 2023

- Delivered two lightweight, API-integrated tools for real-time currency conversion and global weather updates within a 2-week timeline.
- Integrated third-party APIs (OpenWeatherMap, currency exchange API) using Axios.
- Collaborated directly with the client to refine the user interface based on feedback, ensuring a high level of satisfaction.

Freelance / Academic Projects *🔗*, *Software Engineer* 2026

- Developed responsive web applications using React, HTML, CSS, and JavaScript.
- Built backend services and RESTful APIs using Java Spring Boot.
- Collaborated with development teams using Git and Agile methodologies.

PROJECTS

Enum Africa *🔗*

MovieApp *🔗*

- A dynamic movie discovery application showcasing the latest films. Focuses on API integration and an intuitive user interface for browsing and viewing details.

narinidigital.vercel.app *🔗*

- A platform connecting talented individuals with hiring opportunities. Built with React and Redux, featuring a robust booking and listing system.

School Website *🔗*

This app tells you about the school and you can apply only via.

EDUCATION

Federal Polytechnic Bauchi, *National Diploma, Science Laboratory Technology* 2023

Semicolon Africa, *Software Engineer* 2023 – 2024

Henley Business School, *University of Reading,* 2024
